With a national target to achieve 19% renewable energy by 2030, the country is actively seeking partnerships to build grid-scale battery storage systems. Let's break down what this means for ...

Slovakia's grid just got a boost of stability and innovation thanks to Wattstor's pioneering 1.5 MW / 1.6 MWh battery energy storage system (BESS), the first of many projects planned for deployment in 2024.

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase ...

ZSE Group, Slovakia based energy company, has 100+ years of experience from the electricity market in Central Europe. The company is one of the most innovative power and gas suppliers in the region.

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

One large system is now installed, others are in the pipeline. As battery storage becomes increasingly important in the quest to fully utilise renewable energy sources, a raft of projects in ...

In the Banská Bystrica industrial park, we have successfully launched the largest smart battery storage system by FUERGY in Slovakia.

Professional provider of mobile photovoltaic container systems, energy storage container solutions, and containerized energy storage power stations for European industrial markets.
