What is a solar bird bath fountain?

Most solar bird bath fountains are pedestal models rather than hanging or wall-mounted units. A pedestal bird bath consists of an elevated basin atop a short, sturdy column. This is a popular style of bird bath fountain, and solar versions come in a wide range of materials and design nuances.

Is the smartsolar bird bath solar powered?

Just wait and see! The SmartSolar bird bath is truly impressive because of its stylish design, it's solar powered features, and its ability to transform your balcony, deck, or patio into a relaxing atmosphere. This solar powered bath has an attractive olive-green finish, patented underwater solar panels and pumps, and low power use.

Can you put a solar power pump in a bird bath?

When you purchase and receive your new solar power pump, you'll anchor it down into your existing bird bath (typically via plastic suction cups that stick to the bottom or edges of your bath.) If you don't anchor the pump down, it is liable to be knocked over by wind, which will then cause water to splash out of the bird bath haphazardly.
