-----

On July 17, China Energy Construction Gezhouba Group and Niger National Electricity Company signed a business contract for the Niger Agadez diesel-photovoltaic complementary energy storage power ...

SCU provided a 40ft energy storage container to a rural village in the Niger desert in Africa, helping it solve its long-term electricity problem and bringing substantial improvements to the lives of residents.

Solar energy is booming in Niger, one of the world's sunniest countries, with sales of increasingly cheap Chinese-made solar panels going up and new projects coming online.

This project is a key and important contract of SINOSOAR in Africa after the on-going project of 5 PV-Diesel-Battery hybrid power plants in Agadez Province of Niger.

Niger Electricity Co. has asked consultants to submit expressions of interest for feasibility, environmental, and social impact studies for a 60 MW solar-plus-storage project in western...

At the beginning of the Chinese Spring Festival 2023, Sino Soar Hybrid once again brings good news- Our Niger Branch Company has just signed a contract of 9.52MW Solar micro grid in Dosso and ...

This project, funded by the World Bank through the International Development Association (IDA), will enable Niger to better balance its energy mix, which is currently largely dominated by ...

These devices bridge the gap between solar power generation and reliable electricity access - but how exactly do they work in Niger's harsh climate? Let's break it down.
