Supercapacitors, also known as ultracapacitors and electric double layer capacitors (EDLC), are capacitors with capacitance values greater than any other capacitor type available today.

The PSD depends on the structure and type of carbon precursor and the preparation method of the porous carbon. Thus, the dependence of the double layer capacitance on PSD for activated carbon ...

This review article comprehensively analyzes the basic charge storage mechanism in electrical double-layer capacitors (EDLCs) and pseudocapacitors, materials used as SC electrodes ...

This article reviews three types of SCs: electrochemical double-layer capacitors (EDLCs), pseudocapacitors, and hybrid supercapacitors, their respective development, energy storage ...
