The -48V DC power distribution outdoor cabinet designed by Megmeet integrates power cabinet, temperature control, battery, power distribution, and environmental detection.

Battery management features in -48V outdoor Telecom Power System boost reliability, safety, and uptime for critical outdoor telecom network operations.

This option supports the introduction of multiple power sources, such as photovoltaic, wind, and oil generators, and offers multiple voltage outputs (AC 220V, DC 48V, -12V)

The cabinet includes a smart thermal management system with a temperature-controlled fan and RS485 communication for data upload, ensuring efficient operation in varying climates.

Explore our modular outdoor communication cabinet for efficient, safe, and reliable hybrid energy solutions. Discover more!

CNTCE outdoor telecom cabinet, network cabinet are constructed to withstand the elements and provide superior protection for active electronics in all environments.

CNTCE outdoor telecom cabinet, network cabinet are constructed ...

These Cabinets are constructed from light-weight aluminum for weight sensitive solutions. They can be accessorized and configured to accommodate the required equipment and existing lease space.
