Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

LZY Solar Containers use proprietary folding panel technology to maximize power generation while maintaining standard shipping dimensions. Our systems are ...

Highjoule's mobile solar containers provide portable, on-demand renewable energy with foldable photovoltaic systems (20KW-200KW) in compact 8ft-40ft units.

LZY Solar Containers use proprietary folding panel technology to maximize power generation while maintaining standard shipping dimensions. Our systems are faster to deploy, generate more power ...

With solar arrays installed and integrated into your electrical system you can fully power your shipping container with the power of the sun. This option can be implemented on 20 and 40 ft containers.

With our 40' Off Grid Container Home, you can live anywhere without the need for electricity from the grid. Our solar panels provide all the power you need to live a comfortable life.

Our 40ft Solar Container isn't just a storage solution; it's a powerhouse on its own. We've seamlessly integrated high-efficiency solar panels into the container's structure, capturing solar energy 24/7.
