Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's ...

So there you have it - Switzerland's energy storage landscape in 2025 isn't just about electrons in boxes. It's a wild ride of innovation where precision engineering meets environmental ...

Detailed info and reviews on 10 top Energy Storage companies and startups in Switzerland in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.

Based on current scientific knowledge, leading Swiss researchers consider that where large amounts of energy need to be stored for the medium to long-term, technologies such as ...

As we approach Q2 2025's bid deadline, one thing's clear: Switzerland isn't just buying storage systems--they're procuring grid resilience. The winners won't be those with the cheapest kWh price, ...

SwissSTES aims to reduce Switzerland's dependency on fossil fuels by pioneering seasonal thermal energy storage (STES) to become a net-zero carbon society. An interdisciplinary consortium ...

Sep 3, 2021 A new pumped-storage and turbine plant in Switzerland could give a significant boost to the development of renewable energies in Europe. As the Alpine glaciers slowly ...

Switzerland's latest battery energy storage system (BESS) entrant has hit the ground running, with two 2 MW projects with Schindler and Energie Wettingen either live or underway.
