-----

But buried in the numbers was some good news for the company: Tesla saw record deployments of its Megapack and Powerwall storage offerings, totalling 9.4 GWh in the second ...

1. Introduction Tesla now earns a meaningful share of its revenue and an even larger share of its profit from energy generation and storage, not just from selling cars. In 2025, the company ...

Energy storage products like the Megapack, Megablock, and Powerwall drove nearly a quarter of Tesla's gross profit.

Tesla Inc. is seeing triple-digit growth in its energy storage business, despite declining EV sales in 2024. The company's energy storage products, including Powerwall and Megapack, ...

The thing is, Tesla's business spans beyond cars, AI and robotics. Its fast-growing energy business includes solar, residential Powerwall batteries and industrial-scale Megapack systems.

Tesla said its energy business, which produces stationary storage and solar PV systems, saw record profit margins for the fifth consecutive quarter. Demand was strong "in all regions" and ...

Tesla's strategic focus on the energy storage business has not only driven growth but has also impacted the company's overall revenue and profitability. In 2024, the energy storage business ...

Key Points Tesla's energy division more than doubled its storage deployments in 2024, and triple-digit growth has continued this year.
