That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice. Here's how to dodge solar panel scams and identify red flags.

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading claim.

The con starts with a fast-talking salesperson offering a "limited time offer" for a free solar energy install. The big lie: The total cost of the project will ...

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...

Learn how to spot solar panel fraud, avoid predatory contracts, and take action if you've been scammed, with guidance from Prevost Law Firm.

While you are browsing solar power companies, one of them may ...

Across the country, prosecutors are investigating high-pressure sales tactics and misleading financing arrangements. Some customers say they were victims of fraud and forgery.

This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies.
