Is Trinity solar a good company?

With a striking 65,000+ installations, Trinity Solar's experience is possibly its greatest selling point -- one that also attests to its quality of services. The installer receives praise for noteworthy customer service. However, Trinity often partners with Sunnova for leased systems, and that experience hasn't been the best for many customers.

How much does Trinity solar cost?

Unlike many young companies in the market, Trinity does not woo customers based on its pricing. Its system costs vary depending on certain factors but usually fall within the average solar pricing in the area -- in the U.S., that tends to be between \$19,980 and \$39,960 before the federal tax credit or between \$13,986 and \$27,972 after the credit.

Who is Trinity solar?

Trinity Solar is a solar and roofing installation company that serves most states on the East Coast. It has been in business since 1994, but was run as an HVAC-focused company until 2004, when solar became its focus. In that time, it has served over 830,000 families across the coast.

Why should you choose Trinity solar?

Trinity Solar, one of the top solar companies, can help improve your quality of life, reduce your environmental footprint and lower your cost of living. The company technicians not only design your system, but they can also professionally install it and handle all the permits so you can begin enjoying the benefits of your new system.
