---

We provide innovative mounting solutions for any PV solar application including commercial, industrial, government, utility and residential applications. Our mounting system is designed to suit a wide ...

Our decision to utilize zinc-aluminum-magnesium reflects our dedication to innovation and customer satisfaction. This advanced material not only ensures superior performance in ...

Our profile Z are made from zinc-aluminum-magnesium steel, a highly durable material with excellent corrosion resistance making it ideal for outdoor use.

Shielden is proud to introduce our state-of-the-art fixed photovoltaic mounting system, designed for a variety of environments and application scenarios, delivering superior performance and reliability.

The quality and cost of the key support structure of PV mounts are critical to the performance and value of the entire PV system. Aluminum alloy, traditional carbon power station ...

By installing different types of photovoltaic brackets, the height and angle parameters of the photovoltaic modules can be adjusted, so that the photovoltaic modules can convert energy to a greater extent ...

Shielden hot-dip galvanized magnesium aluminum ground photovoltaic bracket has good earthquake resistance, corrosion resistance and wind pressure resistance!

The company has an excellent management team and a professional R & D and production team, and the main products include high cost-effective automatic tracking photovoltaic ...
